南京各界

籌備中山一週紀念

南京通訊：此間各界因三月十二爲孫中山先生逝世一週紀念，適值紫金山孫先生陵寢奠基典禮，非有大規模紀念，無以表崇德報功之意，特由國民黨南京市黨部南京孫文主義學會，金陵青年同志會，國民旬刊社，大江大學，南京婦女協會，安徽旅寧學界同鄉會，南京工商協會，民權社南京支部，中央憲兵學會駐寧代表團，寰宇通訊社，數十團體，農學研究會等，聯席開會，幾次會議，僉主暑假期內，各界多已休業，暫設一孫中山先生一週紀念籌備處，籌備紀

念事項，俟開學後，即徵求各學校團體加入，以示國民公同紀念之意。現聘該籌備處已派人向秀山公園商借會址，已得允諾，並設辦事處於英威園，開始工作。茲探得秀山公園復函云，逕復者：前准貴處來函，以前大總統孫中山逝世一週紀念及陵寢奠基典禮，擬假敝園舉行，當經提交董事會討論，旋奉董事函復，以孫公手造共和，功在人寰，值茲紀念，深表贊同，至惜事務繁瑣，場一節，現緣本園添設遊戲場，事務日多，不敷應用，相應函達。此致南京孫中山先生一週紀念籌備處云云，想屆時定有一番盛況也。

電懇諸公，一致贊助，期底於成。民治前途，實利賴之，湖北全省縣議會聯合會。

請民衆集中力量討伐吳張反抗英日

京國民討伐吳張大衆，日發出警告全國國民，對英日之扶植吳張向衆進攻情事，謂此乃使衆更集中一切的力量，伐吳與，打倒英日帝國主義。原文錄左：

們，農人們，學生們，們，和全國被壓迫的民衆我們決不忘吳佩孚張作霖的罪惡，他們促成政治，用種種毒藥轉化階段，壓迫民衆勢力的發達，我們很明顯的知道，這是吳張二人的罪惡，是他們的後台老板英日帝國的罪惡。自直系軍閥勢力倒塌後，奉系軍閥的勢力無忌，促成全國民衆力結合而反奉聯合戰綫力戰爭的發展，使奉系的崩壞，而且使民衆的政治即能實現。英日帝國者，看見民衆革命勢力強大，知道民衆政權之實切的力量，討伐吳張，打倒英日帝國主義。

們爲維持其在中國侵略者的權利，於是利用種種陰謀詭計，破壞反奉的聯合戰綫，誘殺郭松林，譴反奉表赤化，都是這種陰謀的表示因此他們得以維持奉系軍張作霖的殘餘勢力，扶植直系軍閥吳佩孚的死灰復燃同時唆使他們的走狗吳張勾結，猛然的向民衆進攻最近吳佩孚擾亂鄂豫，張雲態度之離端，延長了帝主義與軍閥爭割的局面。他們卻不以此爲滿足，他深恐廣州政府是代表民衆益而奮鬥的，是國民革命大本營，所以英帝國主義更進一步實行封鎖廣州港，並調兵密窺國民革命軍的北伐！凡此種種進攻的方式，使民衆更明白帝國主義與軍閥處處阻撓民衆勢力高漲，處處破壞革命勢力發展。同時使民衆更集中切的力量，討伐吳張，打

CHINA TO CLAIM LEAGUE COUNCIL SEAT; PROTESTS DOMINATION BY EUROPE

Minister to London has Received Instructions, Stands of Powers Grow More Definite

Spain Will Have Seat or Resign; Japan, Holland, Norway and Sweden Take Stand With Germany

London, February 27.—The Chinese Minister to London, Chu Chao-hsin, speaking today before the Press Club with reference to the League of Nations, declared that he had received instructions from his Government in Peking to put forward China's claim to a permanent seat at the League Council meeting on March 8th.

He pointed out that "China has a quarter of the population of the world and is a civilized nation of five thousand years' standing."

"China," the Minister added, "does not want the League dominated by European nations alone."

Spain Presents

Madrid, February 28.—Presiding at a meeting which organized a Spanish League of Nations Society, Count Romanones declared that Spain's desire for a permanent seat on the Council of the League of Nations is so profound that failure to obtain it would raise the question whether the national dignity of Spain would allow her to continue a member of the League.

Holland Opposes Increase

Berlin, Feb. 28.—Holland will join Japan, Norway and Sweden in opposing further enlargement of the League Council says the "Daily Telegraph." The blow is no doubt aimed at the Germanic powers of northern Europe and at a further weakening of the position of the Scandinavian countries.

Japan Opposes

The Japanese Government officially notified London, Paris and Brussels, that it opposed to any further increase in the membership of the League.

Honan Koumintang Appeal to People to Unite Against Wu

Propose Abolition of Unlawful Taxes, Reduction of Troops, Opium Ban, Free Press, Speech and Assembly

Kaifeng, Feb. 27.—The Honan Provincial Committee of the Koumintang has issued an appeal to the people to unite against Marshal Wu Pei-fu and then put the following programme in action: To organize a conference of public bodies to discuss action against Marshal Wu Pei-fu; to bring about peace between Honan and Hupeh; abolition of unlawful taxes; reduction of the number of troops and military expenditure; reorganization of the administration; suspension of payment of taxes in famine-stricken districts; prohibition of traffic in opium; establishment of freedom of the press; free speech, right of assembly, etc.

"PETIT PARISIEN" FLOUTS MUSSOLINI

Berlin, Feb. 28.—The German Government is not expected to answer Signor Mussolini's latest expostulations which accuse Germany of still being militaristic and of quietly preparing for revenge. This is the reason for the Duce's south Tyrol policy according to the "Petit Parisien." The next thing the Duce will proclaim will perhaps be that his new Super-Dreadnoughts are to fight imperialistic Switzerland.

Canada Nationalist Protests Inferior Status Of Country

"Self-willed Vassals Of A Foreign Power" Is Term Used By Bourassa In Recent Speech

London, February 1.—(By Mail).—Considerable attention has been attracted by a remarkable speech which Mr. Bourassa, the famous Canadian nationalist leader, delivered in the Dominion House of Commons on January 29 in the debate on the Address in reply to the Speech from the Throne.

According to the Ottawa correspondent of Reuters, Mr. Bourassa said that Canada needed a policy of nationalism; with no more imperial ventures sending her sons abroad to shed their blood on the fields of Europe. He animadverted upon the "sordid truth of the war-mongers of Europe," and, declaring that the British voters could express an opinion as to whatever Government was responsible for the war, he continued, "But we in Canada have no more right to frame such a policy than the people of the Protectorates in South Africa. Smaller countries are possessed of more dignified citizenship than we, the self-willed vassals of a foreign power."

Mr. Bourassa hoped that the whole question of imperial relations and the participation of Canada in foreign wars would be thoroughly discussed in Parliament.

Another report of the speech appeared in the "Times" yesterday from its Toronto correspondent whose message began by emphasizing Mr. Bourassa's reference to Canadians as "the self-willed vassals of a foreign power," and proceed to state that he denanted a return to the conditions under which Conservatives and Liberals stood for Canada before any other country. He deplored the system under which the poorest people of the Old Country had a voice in matters regarding war or peace, although the Canadian people had no more say than the inhabitants of a protectorate in South Africa. He alleged that during the war, "Bishops, Lords, and Members of Parliament" in Great Britain made profit out of armaments manufactured in Canada.

Mr. Bourassa further alleged that France and Great Britain were ready to declare war on Germany in 1912, and insisted that the study of British history would confirm his statement. He argued that preferences in the tariff should be for the benefit of Canada, and suggested that the Dominion was laughed at by the British people because she gave preferences without return.

Anti-Wu And Chang League Inaugurated

Seventy Bodies, Including Kuomintang, Students' Union And People's Franchise Association Combine

Denounce Militarists And Imperialist Japan And Britain; To Form A League Corps And Begin Boycott

The Citizens' Anti-Wu Pei-fu and Chang Tso-lin League held its inaugural meeting in the Normal University Sunday, when over 70 public bodies, including the Kuomintang, the Students' Union, the People's Franchise Association, etc.

The chairman delivered a speech emphasizing the necessity for the people to assert their rights in affairs of the nation and to rise up to take effective measures to suppress the internecine strife of the militarists and punish Wu Pei-fu and Chang Tso-lin, ringleaders and instigators of constant war. There were several speeches condemning militarism and the election of the Executive Committee and officers of the propaganda department.

Nationalist Resolutions

The following resolutions were passed: (1) To issue a manifesto emanating from Wu Pei-fu and Chang Tso-lin's crimes, (2) To circulate the world about the crimes committed by imperialism of Japan and Great Britain, (3) To urge the people of the whole country to form branches in support of the League, (4) To form lecturing corps and military propaganda groups, (5) To pacify the wounded troops, (6) To institute inspection of British and Japanese goods, so as to start a boycott.

The Executive Committee is to enforce the above decisions into effect and 50 members have been appointed to form Picket Corps to commence the inspection of British Goods this week.

Germany Free Now, Is Briand Claim

Versailles Forced on Her, But Locarno a Matter of Choice; France Not the Loser

Berlin, Feb. 28.—Briand declared in the French Chamber that whereas the Versailles Treaty was forced upon Germany, she was free on deciding the Locarno Pact through which France had lost none of her means of defence, the Rhine having become the actual Franco-German border. He said it was natural that Germany should attempt to profit from the Locarno Pact.

READJUSTMENT OF NISHIHARA LOAN

Tokyo, February 27.—The Lower House this afternoon, after a lengthy discussion, unanimously passed the Government Bill for readjustment of the Nishihara loans, expressing the hope that the Government would use its utmost efforts to reach an understanding with China during the present tariff conference, and that the loans would be repaid as soon as possible, thereby relieving the burden of the Japanese people.

NO DESIRE TO REGAIN KIAOCHOW, IS CLAIM OF OFFICIAL GERMANY

Berlin, Feb. 28.—The news published by a Chinese agency about Berlin propaganda for the restitution of Kiaochow to Germany is stigmatised by the press department of the German government as malicious. Germany wants to continue her good relations with China on a purely commercial basis, it is stated, but evidently some non-Chinese interests are planning to undermine these good relations. The German attitude was and is "Hands Off China".

Kuominchun Denies Being Driven Out of Kaifeng; Withdrew

Yueh Wei-chun Now in Chen Chow; Discuss Terms For Raising of Siege at Sinyang

The press report that the second Kuominchun has been driven out of Kaifeng by General Chin Yun-ao from Shantung has been denied by the first Kuominchun leaders; but they admit that for the purpose of facilitating his operations against Marshal Wu Pei-fu in southern Honan, General Yueh Wei-chun, Tupan of Honan and commander-in-chief of the second Kuominchun army, has shifted his headquarters from Kaifeng to Chenchow, on the Peking-Hankow Railway and that General Mi Chen-piao, commander of the old Wuyichun, which was formerly under the control of the Chihli party when it was in Jehol in 1924, will be responsible for the preservation of peace and order in Kaifeng.

Yueh at Chenchow

The fall of Kaifeng, capital of Honan, on Friday, is reported from Hankow, where it is stated that Tupan Yueh Wei-chun has moved his yamen and official records to Chenchow.

To Raise Sinyang Siege

Hankow, Feb. 27.—In order to meet the situation consequent upon the siege of Sinyang by the Hupei army, thereby furnishing the Kuominchun forces, followed by an advice to surrender, the President of the Chamber of Commerce and several other representative people of Sinyang arrived in Hankow. As a result of negotiations, it is learnt, it has been agreed upon that the Kuominchun forces, some 2,000 strong, at Sinyang, will be disarmed and that a Divisional Commander and several Brigade Commanders of the forces shall join the Hupei forces to be given the post as Councillors and attached to the General Headquarters. The siege of Sinyang will, it is expected, be raised on acceptance of these proposals.

Priests Safe

The Catholic priests who remained the beleaguered city walls of Sinyang when the other foreigners fled, are reported to be safe, according to the delegation which arrived in Hankow from that city to negotiate terms with Wu pei-fu.

PREDICT. ATTACK ON LUANCHOW FRONT

Tientsin, Mar. 1.—The Fengtien forces at Shanhaikuan are moving for the past two or three days, and reinforcement from Chinchow are arriving. They are moving apparently with a view to essaying an attack on the Kuominchun encamped on the Lanchow front, and it is feared that collision will shortly take place between them.

KUOMINCHUN FORCE LI BACK TO MACHANG; PI SHUH-CHENG ARRIVES WITH WARSHIPS

FINANCE BILL PASSES FRENCH SENATE IN MIDNIGHT VOTE

Paris, Feb. 27.—Just after midnight the Senate, by 270 votes to 21 adopted the entire Finance Bill, which will now return to the Chamber. Both Houses have passed provisional credits for March, amounting to some three milliards of francs, necessitated by the delay in voting the budget.

Wu Hand in Hand With Imperialists, Says S'hai Groups

Points Connection Between Wu's Attacks and Aggression in Canton, Imperialists Would Crush Nationalism

Shanghai, Feb. 27.—The Shanghai Committee for the Promotion of the National Assembly has issued a manifesto stating that Marshal Wu Pei-fu is making it possible for the foreign imperialists to partition the country and to seize territory and that now, assisted by Wu Pei-fu, the imperialists have removed the mask and are provoking an attack upon the Canton government and threatening to send troops and warships. Further, the militarists and imperialists are plotting to crush the labour and national movement in China and have commenced by trying to crush the Hongkong strike. Therefore, says the manifesto, we must fight Chang Tso-lin and Wu Pei-fu and also the foreign imperialists who assist them. The manifesto concludes with the slogans: Fight against the attempts at blockade and support the Canton government! Promote the unification of the people's armies and the convocation in the near future of the national assembly!

Filipinos Seek Chinese Co-operation Against Domination

Booklet Now Circulating Recognizes Kinship Of Far Eastern Peoples; See Chinese Nationalism As Significant

By William R. Kuans
United Press Staff Correspondent.

Manila, February 11.—The promotion of good-will and co-operation between China and the Philippines and the fostering of peace and prosperity in the Far East are the aims set forth in a booklet just distributed throughout the Philippines.

The booklet contains a foreword by the Chinese Consul-General Ling-oh Wang, with statements by Governor General Wood, Senate President Quezon and other prominent persons. These statements all stress the common heritage of Oriental peoples and acknowledge an important role played by Chinese who have scattered and settled throughout the islands of the Pacific.

Against the West

The booklet, which was prepared and authorized by Consul-General Wang, has aroused considerable interest among the

Lu Ching-lin Takes Charge Of Kuominchun Forces South Of Tientsin; Armoured Cars Penetrate Li's Lines

First Kuominchun Expected To Turn The Tide Of The Battle; Troops Well Armed; Supplies Arrive From Peking

Tientsin, March 1.—The First Kuominchun launched a general attack upon General Li Ching-lin's forces, in the area between Chenkuantun and Tangkuantun on the 27th ultimo. Using many armoured cars, they penetrated General Li's advanced positions, and the allied forces fell back on Machang. General Lu Chung-lin is now at Chinghai.

Pi Shuh-cheng Joins

Tsingtao, Feb. 28.—The rumour that Pi Shun-cheng will join the attack on Tientsin with his navy has realized. Pi arrived in Chefoo from Tsingtao on Feb. 28 and made arrangements for leaving for Taku or Chinwangtao at the head of five warships and three transports carrying war necessities.

Li Repulsed

The Shantung Chihli army has withdrawn from Machang, according to local reports, although the Kuominchun has not yet attempted to reoccupy it. Taking advantage of the change from the third to the first Kuominchun on the front, Li Ching-lin sent his men forward from Machang to take Tang Kuan Tun only to meet defeat at the hands of the Kuominchun under Han Fu-chu.

Retiring to Machang, the Chihli Shantung forces realized that the Kuominchun held the barracks nearby and the two important places of Liang Ho Chen, and Liu Ho Chen, they are reported to have withdrawn from Machang station where there are no troops now.

The main body of the enemy is reported to have withdrawn to Tsangchow leaving small bodies of cavalry at Hsing Chi and Tsing

Opposes Locarno As Ineffective In Time of Conflict

Weakness Lies in Fact That British Dominions Not Bound, States French Opponent; Need Franco-British Entente

Paris, February 27.—The importance attached by France to the foreign policy of the United British Empire was illustrated in the Chamber today during the third day's debate on the Locarno Treaty, when M. Marin voiced the Rightist opposition against ratification from the military standpoint. M. Marin questioned the effectiveness of guarantors' intervention in case of a conflict and urged that one of the weaknesses was the fact that the British Dominions were not bound by the pact. He said that a Franco-British entente was necessary to civilization. The debate was then adjourned

Britain Plans For China Intervention

(Chinese Information Bureau)

London, January 26.—The extent of the campaign which is being worked up against China is not fully realised.

The plans for a war of Intervention to smash the Chinese National Movement have already been thought out in some detail.

The struggle in diplomatic circles is between those who believe in "negotiations," e.g. conferences, promises, delays etc., and those, on the other hand, who believe that "Force" alone can restore British Domination in China.

Experts have already considered this position and have recommended that only 100,000 men are necessary. Many of these could be speedily brought from India, where there are 80,000 European troops. Also the Hongkong garrison has already been strengthened.

The plan is to divide China into two commands—North and South. The major portion of the troops would be divided between Tientsin and Shanghai. The first portion would be landed at Tientsin and would endeavour to come to an early and decisive engagement with Feng Yu-hsiang. The tacit support of Chang Tso-lin has already been obtained.

At Hankow only British Gunboats would be necessary to reduce the Chinese town.

At Canton it is considered that it would be necessary to land only about one Battalion of European Troops. This can easily be done on the Island of Shameen which is still held by British and French volunteers. From the island of Shameen the attack on the Chinese Town would be launched—adequately supported by gunboats and cruisers, which have been collecting on the China Station from other parts of the globe for some months.

Financial experts (whose attention has been directed to a recent publication by a writer in the propagandist service of Chang Tso-lin) have estimated that the cost to the British taxpayer can be reduced by seizing the Chinese Railways (of course after the war is successfully terminated). Allowing that the war would last for two years, which was the period of intervention in Russia, and would cost £150,000 per day, this sum can be recovered by a mortgage on the whole Chinese Railway System if an additional £50,000,000 is invested in Chinese Railways to extend the present trackage from 7,000 to 12,000 miles. It is understood that with a thoroughly defeated and subdued China and with increased "settlements" and "concessions," certain banks backed by the Bank of England would be prepared to invest this sum. It should be remembered that the Chairman of the Hongkong and Shanghai Bank is also a Director of the Bank of England.

It is believed that as all the News Services can be controlled and cables censored, the major operations can be effectively launched before British Labour or any other radical organization likely to protest, will know of it.

Already the Bank of England has transferred £500,000 sterling to the Hongkong and Shanghai Bank in Shanghai for use in beginning a vast propaganda campaign in the East to "overcome Chinese antagonism" (?nationalism) "and Soviet propaganda."

Prince Carol Caught In New Love Tangle

United Press

Paris, February 28.—New tangle in the affairs of Prince Carol, who recently renounced the Rumanian throne, developed today when it was reported by newspapers here that Queen Marie of Rumania will come here soon with Madame Zizi Lambrino, Carol's morganatic wife, with Carol's son by Madame Lambrino.

The Queen's idea, it is said, is to urge Carol—who is now here in company with the beautiful Italian woman known as the Princess Lupescu, and for whose sake he is alleged to have renounced the throne—to return to Rumania and become reconciled with his wife Helen of Greece, thereby ensuring an unbroken succession to the Rumanian throne.

Madame Lambrino, on the other hand, wishes to press the claims of herself and her son while the Queen desires to alienate Carol from both Madame Lambrino and the Princess Lupescu.

KUOMINCHUN FORCE LI BACK TO MACHANG

(Continued from Page 1)

Hsien to bother the Kuominchun front lines.

Reports of fighting between Peking and Tientsin appear to be unfounded since the Kuominchun was fully aware of the possibilities of a flank movement by the enemy directed at Yang Tsun via Ho Chien, to which place they send Commander Wang Chen-wei prepare adequate defences. It is thought that his arrival there might have given rise to the rumored presence of the Shantung Chihli troops on that side of Tientsin.

Lu Chung-lin Directs

Asiatic

According to information from Kuominchun sources, General Lu Chung-lin is now at Chinghai, about fifty li from Tientsin where he is personally directing the operations against the combined Shantung-Chihli troops under the command of General Li Ching-lin with General Han Fu-chu (?) as his assistant. The Kuominchun leaders are confident that after the concentration of the first Kuominchun troops as well as the arrival of General Lu Chung-lin at the front, they can inflict a serious blow on the invaders from Shantung so that they do not regard the situation as really serious though they now pay the first and foremost attention to this front. In fact, General Chia Teh-yao and Mr. Ho Teh-lin are waiting favourable developments at the Shantung-Chihli front before they will assume the posts of Premier and Finance Minister respectively.

Kuominchun Has Supplies

Nippon Dempo

Tientsin, Feb. 23.—The Kuominchun has an ample supply of war necessities in Tientsin. Further they are daily replenished by supplies from Peking. Today, 300,000 catties of bun and more than ten car-loads of flour and fuel, together with cash arrived from Peking.

A military spy captured by the Kuominchun states that there are two Supplementary Brigades belonging to Chang Tsung-chang south of Tientsin, although their number is less than 10,000 and meagrely furnished with war necessities. In addition, there are certain soldiers commanded by Li Ching-lin, who are also poorly armed and fed.

Wine Growers Storm Jail For Release Of Demonstrators

Defy Police With Forks And Scythes; Prevent Further Arrests; Protest Luxury Tax

Asiatic

Berlin, Feb. 23.—The wine growers in the Mosel valley are incensed, because fourteen of their number were arrested for participating in the Thursday demonstration and stormed the jail last evening. Armed with forks and scythes, they defied the police, but were dispersed. However, the police are unable to make further arrests. The growers are offering choice Berncastler wines at 250 Marks per cask and make responsible the huge luxury taxes and the Spanish-German trade-agreement for their plight.

Marshal Feng Still Stays in Retirement

Report of Feng in Kalgan Denied, Leaders Visit General, Urge His Resumption of Control of Kuominchun

Kuo Wen

Marshal Feng Yu-hsiang is still at Penticheuan, according to an important personage who returned from Kalgan yesterday.

Marshal Feng returned to Penticheuan from Poutouchen on the 23rd of February and immediately General Chang Chikiang and General Li Ming-chung went there to plead with him that he abandon his trip abroad and come out of his retirement to save the situation.

It is understood that at his meeting with Marshal Feng, General Chang strongly persuaded him to cancel his trip to Europe and America and emerge from his retirement to resume control of affairs. General Chang pointed out that when Marshal Feng retired from public life last winter and announced his intention to go abroad he expected that this would contribute to the early restoration of peace in the country, but since then not only had this expectation not been fulfilled but the situation had grown from bad to worse. As a result of this persuasion, Marshal Feng agreed to reconsider his decision to go abroad at once.

On the evening of the same day, that is, Feb. 23, a military conference was held in which Marshal Feng, General Chang Chikiang and General Li Ming-chung participated. The military situation at the various fronts was carefully gone over.

Generals Chang Chikiang, Li Ming-chung, Lu Chung-lin, Sung Che-yuan, Liu Yu-fei and Liu Chi, leaders of the First Kuominchun, have addressed a circular wire to all the prominent leaders of China, requesting that they join in a common endeavour to persuade Marshal Feng to emerge from his retirement.

CHINA TO CLAIM LEAGUE COUNCIL SEAT

Council, with the exception of Germany.

Japan Press Comment

Reuter

Tokio, February 27.—The Japanese press generally is silent on the matter of the League Council seats though the "Jiji," which reflects moderate views, opposes France's proposal, as it thinks that the inclusion of Poland would be likely to shake the world's confidence in the League. The paper thinks that the French fears are groundless, as Belgium and Czechoslovakia will help to adjust the balance, whereas the inclusion of Poland would be tantamount to the establishment of an anti-German alliance within the League, which would be contrary to the spirit of the Locarno Agreement.

Warns Germany Go Slow

Asiatic

Berlin, Feb. 23.—The Berlin press warns the Government carefully to consider whether the fact that the big powers plan to first decide the question of the League Council during the March 8th meeting before admitting Germany, is in accordance with the Locarno spirit.

the population would vote for Germany.

German Miners Aroused

The disorderly conduct of affairs by the so-called League Commission has been sarcastically commented upon in the British press. The population is exasperated, more especially the German miners.

The territory is German, but the mines were taken from German ownership.

This is held to be one of those incredible and unprecedented cruelties to an innocent and civilized German population resulting from the pathological and spiritually diseased atmosphere at Versailles.

The new Greek-Turkish frontier controversy followed an attempt to fix the Maritza delta line. The Greeks appeal to the League of Nations to have the Hague Court intervene, following the Turks' refusal to await the international court's decision.

Poland insists that the place where the frontier incident occurred was Polish territory and it is now up to the League of Nations Council to decide.

FILIPINO'S SEEK CHINESE COOPERATION

(Continued from page 1)

Americans and Europeans in the Philippines because of the fact that it is in line with the post-war tendency of Far Eastern peoples to seek common cause against Western domination.

Consul-General Wang said in his introductory remarks that China and the Philippines have been friends and neighbors for centuries. The Chinese, he continued, settled in large numbers among the Filipinos, and the two races had intermarried and Filipinos of Chinese blood had won special prominence in the affairs of the Islands.

He cited China's ancient history and expressed unbounded confidence in the future of the Chinese Republic.

China Nationalism

"In China today," the writer concluded, "there are unmistakable signs of a rising national consciousness. In time this tendency will override militarism and give China a truly democratic Government."

"When the country is once united and international problems satisfactorily settled, China will enter upon a new era, an era of peace and prosperity. Let us hope this new era will come soon, not only for the benefit of China, but for every member of the family of nations. The peace and prosperity of China means the peace and prosperity of the Far East and of the entire civilized world."

Governor General Wood wrote that it gave him "great pleasure to endorse this move on the part of the local Chinese community, seeking to continue cordial relations between the people of China and the people of the Philippine Islands."

President Quezon said that Filipinos were watching progress in China with special interest because they wanted to see it demonstrated "that an Oriental nation can successfully establish a republican form of Government. Also because the Chinese and Filipinos are so closely linked by many ties that Chinese can hardly be considered as foreigners in the Philippines."

The Kuomintang Declares Its Stand

Part III The Peasant and Proletarian As the Leader in the Fight for Freedom; China Today; Her Enemies, the Militarists, Officials, Compradores and Landlords

(Following is the continuation of the second instalment appearing in our last Saturday's issue, which gives a review of the world in revolt, and is part of the section on the general world situation).

From the facts enumerated we may draw the following conclusions.

(1) There is a general awakening among the oppressed peoples and a new consciousness of their own power, born of experience and of the determination to take their fates in their own hands. As a consequence of this new consciousness and this new determination, there are some among them who have already openly come into armed conflict with the imperialistic powers, and have dared to challenge their military strength, such as the Rif in Africa, and the Syrians in Asia Minor. There are others who have fought and won and have today become a free and independent power; such is the case of Turkey.

Proletariat at the Fore

One special point has to be noted here, and that is, in all the movements for national liberation, it has not been the bourgeoisie or the capitalists that have been of the greatest practical help, but in every case, the success is largely due to the fact there is a propertyless class, which has come into existence as a result of new industrial conditions. It is this class that has always stood at the front in the fight for freedom.

(2) Wherever revolutions are successful, the support of the general mass of people, and especially of the peasant and labor classes, is necessary. The earlier movements for national emancipation have failed largely because the movements were confined to the educated classes, and therefore lacked the support of the solid forces that have been the making of history. From the experience of the recent past, we can see that in all future efforts, it is necessary to go to the farming and the labor population and to organize them for the fight for national liberty.

Must Recognize Foes

(3) In all national revolutions, it is extremely important that we realize ourselves who our foes are. In the fight against common foes, it will be necessary to ally the forces which have a common aim and bring about an effective co-operation. The oppressed peoples of the earth have to co-operate with each other as a fact as clear as daylight.

(4) In all nationalist movements, a narrow-minded type of patriotism has been found to be the greatest danger to their progress, for this always unconsciously leads into a new form of imperialism, so that even after the success of the nationalist movement, the world will derive no benefit except the upshot of a new imperialist power. Therefore it may be laid down as a cardinal principle that all nations which want to be treated as equals by others must be prepared to acknowledge the right of equal treatment for others. Only thus will a co-operation between the oppressed peoples be possible.

The Chinese nationalist movement will co-operate with Soviet Russia which has treated us as an equal, but it will also extend the equal treatment to the other weaker nations, and

regard them as friends and allies in the common fight for liberty, in the hope that the world may eventually be able to see a true league of equal nations.

The Nationalists' Opportunity

(5) The internal dissensions among the imperialistic powers themselves and those that exist within each imperialistic nation give the oppressed nations a wonderful chance for the overthrow of the imperialistic yoke, and may be counted upon as one of the forces contributing toward the final achievement of our aim. Nationalists of all countries should not forget to make full use of this situation, so that all the forces that might be of help to the cause of revolution will be effectively brought into line.

Beware Propaganda

(6) It is one of the accepted corollaries of the above conclusions that we should keep a watchful eye on the intrigues of the imperialists whose most effective tool is insidious and artful propaganda. The purpose of the propaganda is to spread distrust and dissension among the subjects of the colonies and semi-colonies. To the innocent people of the west, they would raise a perfectly meaningless and ungrounded cry about the "Yellow Peril," so that the whole yellow race may be looked upon with hatred and suspicion by the white people. On the other hand, to the people of the east and the oppressed countries in general, by every conceivable means and at every conceivable opportunity they would try to bring in the equally groundless charge of Bolshevism or Communism.

Such false and mischievous propaganda is calculated to extinguish all the fire and enthusiasm of the ignorant classes for their own salvation. It is necessary at all points to meet this propaganda face to face and show the people where the intrigue is leading us to.

Section II

Present Situation in China

It may be gathered from the above that the revolution in China is part of a world-wide revolution. But how is it possible for imperialist propaganda to obtain a foothold in any nation except that there are certain classes in these countries who are ready to make themselves the tools and puppets of the aggressive powers. There are, for instance, as regards China, the following classes whose interests work directly against our national welfare.

Traitorous Militarists

(1) The Militarists. The more powerful of the militarists have made the centralization of China an excuse for the expansion of their own spheres of influence. The smaller ones establish themselves as the heads of different provinces or areas, with in which they could exercise their autocratic rule and have an absolutely free hand for the robbery and molestation of the people for their own benefit. The soldiers have no shadow of an idea about serving the people and know only the duty of serving their immediate heads who maintain a semblance of living for them. But even this latter object is not always fulfilled, and the natural result is that many of them have drifted into banditry. So long as this senseless system of raw

and unintelligent militarism exists,

Strike Averted; No Salary Reductions

Indo-China S. N. Company Withdraws Notice Of Salary Reductions Scheduled For March 1

Reuter

Hongkong, February 27.—A strike in connection with the salaries of the floating staff of the Indo-China S. N. Company is no longer imminent.

Hongkong, later.—The possibility of a strike among the Indo-China S. N. Company's officers and engineers has been averted by the Company withdrawing the notices of reductions of salary, which were to have come into force on March 1.

so long will civil war and internal turmoil be the prevailing condition in China.

Selfish Official Class

(2) The official class. In modern democratic countries, government officials are supposed to be the servants of the people, and, except when in official duty, cannot be distinguished from the people themselves. But in China, the officials have become a special class, standing outside the laboring, the merchant or the agricultural classes. The natural trend for them is to try to cater to the militarists so as to gain personal promotion for themselves.

Cat's Paw Compradores

(3) The compradores. These are the cat's paws of foreign capitalism. Though capitalists are able to suck the blood out of the nation, while on their part, through co-operation with foreign capitalists, they are able to satisfy their material desires.

Feudalistic Landlords

(4) The country landlords. These are the remains of mediaeval feudalism, and they fatten themselves on the products of the farming labor.

In the eyes of the imperialists, the above four classes are the natural classes for them to work with.

For nothing is clearer than the fact that in order to force China down into a quasi-colonial state, the imperialists have nothing to be more afraid of than a popular awakening leading into a national revolution. And in order to check this popular movement, the most effective tool would be classes inside the country whose personal interests run counter to those of their nation. While the compradores and the provincial-minded bourgeoisie may be utilized for furthering their economic ambitions, the militarists and officials, who have all personal ambitions to satisfy, may be made use of for furthering their political interests. Thus economic and political forces work together and are ready to force China down into a state of actual subservience to the foreign powers. This means no sacrifice at all on the part of the compradores, militarists and officials, as their object in life is in any case to build up a family fortune for themselves on the ruins of the people's safety and happiness. Thus through a vicious circle, as it were, they naturally play into each other's hands and into those of their would-be foreign masters.

Latvia To Ensure Safety To Soviets

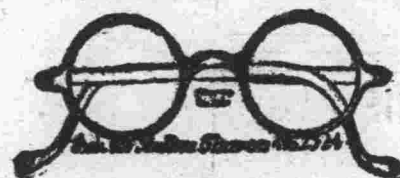

Government Will Take Urgent Measures In Connection With Recent Murder Of Russian Diplomatic Couriers

Tass

Moscow, Feb. 27.—In connection with the attack and murder of the Soviet Diplomatic Couriers in a train in Latvia, the Latvian Minister for Foreign Affairs has published a statement, expressing the sincere regrets of the Latvian Government for the crime and announcing that the Latvian Government was taking urgent measures to discover the persons and organisations complicated in it. The Latvian Government says that it will be glad to receive any material or information at the disposal of the Soviet Government that will facilitate the enquiry now being made into the affair and also that it will give to the Soviet Legation in Riga all the details of the enquiry.

The Latvian Government promises to take measures that will in future ensure the safety of the Soviet representatives while in Latvian territory and will deal severely with individuals, organisations and the press, who may endanger this safety, particularly with White Russian immigrants who abuse the right of asylum.
